Bath & North East Somerset Council has announced its involvement in an initiative to improve the national recycling rate of post-consumer aerosols in the UK. The project is being funded by **Alupro** through the **Aerosol Recycling Initiative (UKARI)** and facilitated by **Suez Recycling & Recovery UK**. As part of a four-phase process, curbside waste composition data was collected from households across the region. Capture, sorting and recycling volumes of aerosol containers were measured and presented back as a material baseline. Following completion, a targeted communications program was

rolled out with the goal of improving resident education and driving positive behavioral change.

Moravia Cans announced that it has been awarded the **ASI Performance Standard V3.1** certificate by the **Aluminum Stewardship Initiative (ASI)** for its facility in Bojkovice, Czechia, which manufactures aluminum monobloc aerosol cans for the deodorant and personal care markets.

The **Science Based Targets initiative (SBTi)** approved **Trivium Packaging's** net zero target, confirming the company's long-term greenhouse gas (GHG) reduction goals are consistent with a 1.5°C pathway and the global objective to reach net zero emissions by 2050 at the latest. Trivium stated that it has reduced Scope 1 & 2 emissions by 31% since 2020, and has reduced Scope 3 emissions by 19% since 2020. As well, the company retained **EcoVadis Platinum** and **CDP A List** recognition.

European Aerosols announced that all four of the company's TecDoc brands (**ColorMatic**, **DUPLI-COLOR**, **MOTIP** and **presto**) have achieved **Premier Data Supplier** status.

EURneffy nasal adrenaline spray from **ARS Pharmaceuticals, Inc.** is now available in the UK with a prescription. A pocket-sized alternative to traditional adrenaline auto-injectors (AAIs), **EURneffy** is designed to be portable and ready-to-use in emergencies. **SPRAY**

Mergers & Acquisitions

The **LINDAL Group** acquired a new manufacturing facility in Wismar, Germany. Located approximately 40 km (25 miles) east of LINDAL's plant in Schönberg, the Wismar facility is designed for high-quality polymer

processing and equipped with clean room manufacturing capabilities. LINDAL will invest a further €17 million (\$22.9 million) over the next three years to adapt the site, which will operate as a satellite to the Schönberg plant.

Highline Warren, a provider of automotive and household care solutions, acquired the **Sprayway** glass and surface care brand from **PLZ Corp**. Sprayway brings a portfolio anchored by its ammonia free, streak free foaming glass cleaner alongside growing offerings in household surface care, auto appearance and industrial solutions.

Following the merger of **Metal Press S.p.A.** and **Ferrari Meccanica S.p.A.**, the group created Italy-based **New Box Aerosol S.p.A.**, an industrial unit dedicated to the production of tinplate steel aerosol cans that is already fully operational.

Knowlton Development Corp., Inc. (kdc/one) and the **Clarion Group**, a contract manufacturer based in India, established the joint venture **kdc/one Clarion Beauty Pvt Ltd**. In addition to integrated packaging and innovation capabilities available to global and Indian beauty brands, development is underway on a manufacturing facility in Gujarat, scheduled to begin commercial operations by July 2026. The plant will focus on high-performance cosmetic and personal care packaging.

Coty Inc. sold its remaining 25.8% stake in **Wella** to **KKR** for \$750 million, completing its divestiture of the hair care brand.

CastlePierce, a provider of retail printing and packaging solutions, acquired **Quality Assured Label**, a supplier of labels and specialty packaging solutions.

Givaudan Fragrance & Beauty successfully completed its acquisition of **Belle Aire Creations**, a U.S.-based fragrance house. **SPRAY**
