LINDAL Group Launches Three New Actuators at Paris Packaging Week 2026

Hamburg, Germany – March 2nd, 2026

Global aerosol dispensing leader, the LINDAL Group has launched three new actuators at the Paris Packaging Week 2026

At this year's Paris Packaging Week 2026, during the Aerosol & Dispensing Forum, LINDAL Group proudly unveiled three new actuator solutions designed to expand its portfolio across healthcare, personal care and homecare applications: Snap, Luna and Matteo.

These launches reinforce LINDAL's commitment to innovation, functionality and application-driven design within the aerosol industry.

Snap – Precision Nasal Actuator for Healthcare Applications

Snap is a new spray head actuator specifically designed for nasal applications within the healthcare market.

Available in both adult and child versions, it supports sterilisation processes and features a mechanical break-up spray system to ensure controlled and effective delivery. Snap is supplied with LINDAL's Bag-on-Valve (BOV) systems and compatible with all standard nasal overcaps available on the market. Developed with patient safety and performance in mind, Snap offers a reliable and versatile solution for nasal formulations.

Luna – 35mm Twist-Lock Actuator for Personal & Home Care

Luna is a Ø35mm twist-lock actuator designed for personal and homecare applications.

Featuring a visible On/Off indicator and an audible click on use, it clearly confirms the actuator's open or closed position, helping prevent accidental actuation and enhanced convenience during use. The actuator is suitable for aluminium and tinplate cans and is

compatible with all LINDAL male valves and BOV systems. Luna also supports the full range of LINDAL inserts and is customisable via multicolour combination options, enabling strong branding possibilities alongside exceptional functional performance.

Matteo – 45mm Spray Head Actuator with Customisation Flexibility

Matteo is a Ø45mm spray head actuator developed for personal care.

The two-part actuator is suitable for aluminium transfer and tinplate cans with a 45mm diameter. It is available with both mechanical and non-mechanical break-up inserts, offering flexibility in spray performance. Compatible with LINDAL male valves CA39 and LIP, Matteo also allows customisation of body and finger pad colours, supporting brand differentiation while maintaining high technical standards.

Driving Innovation in Dispensing Solutions

Pierre Louis Sigaut – Sales Director Lindal France - commented: “The launch of Snap, Luna and Matteo at Paris Packaging Week reflects LINDAL’s commitment to delivering application-driven innovation across healthcare, personal care and homecare markets. With Snap, we are addressing the growing demand for precise and reliable nasal delivery solutions. Luna introduces intuitive twist-lock safety with clear user feedback, while Matteo offers flexibility and premium customisation for larger diameter formats. Together, these new actuators demonstrate how we combine technical performance, safety and design versatility to create added value for our customers worldwide.”

The introduction of these three new actuators at the Aerosol & Dispensing Forum highlights LINDAL Group’s ongoing dedication to delivering application-specific solutions across multiple market segments. By combining technical performance, safety features and design flexibility, these new actuators strengthen LINDAL’s position as a leading innovation partner in aerosol dispensing technology.

About LINDAL Group

LINDAL Group is a worldwide leader in the design, manufacture and sale of valves, actuators and spray caps used in aerosol products. The Hamburg, Germany-based company has more than 60 years of experience with innovative dispensing solutions for the cosmetics, household, health care, food and technical industries.

The LINDAL Group is represented by subsidiaries and licensees in more than 15 countries throughout Europe, Asia and The Americas. The company is renowned for its innovative designs, which deliver optimal functionality and return on investment. As a result, LINDAL aerosol dispensing solutions are the choice of the world’s most prestigious and trusted brands.
